### NEWS

#### New Parish Library Resources

#### IMF eLIBRARY

The IMF eLibrary Data resource provides access to a range of time series data on IMF lending, exchange rates, and other economic and financial indicators. Data sets in UNM's subscription included; International Financial Statistics, Balance of Payments Statistics, Direction of Trade Statistics, Government Finance Statistics, and more.

#### OECD iLibrary

The OECD iLibrary contains all the publications (Books, Papers, Factbook) and datasets released by Organization of Economic Cooperative Development (OECD), International Energy Agency (IEA), Nuclear Energy Agency (NEA), OECD Development Centre, PISA (Programme for International Student Assessment), and International Transport Forum (ITF) since 1998. Access this resource from the Library's Database list or at <http://libguides.unm.edu/internationalbiz>

#### Anderson Convocation December 17, 2011

The Anderson School is proud to welcome UNM Regent Bradley C. Hosmer as its 2011 Fall Convocation Speaker. Family

and friends of Anderson graduates are invited to attend the ceremony on Saturday, December 17 at 2pm at Johnson Center.

Lieutenant General Hosmer chairs the Board of Directors of the Armed Forces Services Corporation. Since retiring from the Air Force in 1994 he has advised the Department of Defense and industry on long range and strategic planning, and chaired or manned public and private special advisory councils.

#### Be Prepared!

The next GMAT/GRE workshop is scheduled for Thurs, December 15, 6-9pm at the Anderson School. Find out more by calling 505-277-2525 or go to:

#### Get ahead with an Executive MBA from Anderson

Looking to gain comprehensive & relevant knowledge for today's world? Get an Executive MBA from the Anderson School.

Find out more at an information session on Monday, December 5 from 6-8pm at the Hilton Garden Inn in Rio Rancho. RSVP at 505-277-2525 or [emba@mgt.unm.edu](mailto:emba@mgt.unm.edu).

#### Behind the scenes at DMC

Dean Doug Brown and Development Officer Ernest Rodriguez-Naaz recently joined Distribution Management Corporation (DMC) President and CEO Steve Griego for a tour of his Albuquerque company. Griego says DMC is the region's leading delivery and logistics provider, with warehouses and offices in seven states, including Texas, Arizona, Colorado, Utah and Nevada. No one Ever  
Tells Me Anything!

By Dean Brown

## **Dean Doug Brown and Professor Xin (Robert) Luo visited China on November 5 - 13. Dean Brown chronicles their travels in the Anderson Bulletin - this is the second of two parts.**

The arrangements discussed concerned mostly student exchanges, primarily in the undergraduate programs, but they also would welcome faculty visits, including short term teaching stints. One school even arranged for Robert and me to address a class of young faculty members. We will be following up with the officials at each university, and we will be seeking opportunities to broaden the involvement to include other schools at UNM as well.

One of the drivers on the part of our Chinese friends is a strong admiration for things American. Everywhere one goes in China, there are signs of emulating American culture, from the dress to the music to cultural practices. At one school, while touring through the student union, we saw some students practicing break dancing. We didn't have the heart to tell them that that trend had passed.

A few general takeaways:

The scale of development in China is so staggering. In Xian, they boast of having 109 universities. Many are new within the last decade. Most have student bodies of 20,000 or so. Funding appears to be no problem for these university administrators.

Among the perhaps a thousand or so students we saw in passing, I do not recall seeing an obese one. They are serious, focused, no nonsense in their approach. They wear black and they smoke. Lots of bikes, few skateboards.

While we can all admire the pace of Chinese economic growth, I would be concerned about the possibility of significant reversals at some point. There is considerable hidden unemployment with lots of make-work employment apparent, such as workers sweeping with brooms at the edges of freeways. The waves of farm workers who have recently emigrated to urban areas are experiencing some assimilation challenges. The forest of new apartment buildings is overwhelming. Most appear 90% complete with no current activity and there are lots of completed empty buildings.

The air pollution is oppressive in all the cities. Although the auto count has increased to first-world levels, the fleet is so new that one would not expect that source to be the primary culprit. Clearly, the proliferation of manufacturing plants and coal-fired electrical generation are major contributors.

### **UPCOMING EVENTS**

Mon. Dec 5	EMBA Information Session, Rio Rancho Garden Inn 6-8pm
Dec 12 - 16	UNM Finals Week
Thur. Dec 15	GMAT/GRE Session, 6-9pm, Anderson School of Management, 505-277-2525
Sat. Dec 17	Anderson Convocation, 2pm, Johnson Center

**The Anderson Bulletin is published on Mondays. Deadlines for inclusion is Wednesday at noon; send complete information to [news@mgt.unm.edu](mailto:news@mgt.unm.edu) or submit online at <http://www.mgt.unm.edu/bulletin/submitContent.asp>.**
